

Product Technical Data Sheet

Drum Kit

TW 2013SA and TW 2013SB

Tidal Wave's Drum Kit makes a complete and sophisticated alkaline presoak that utilizes a 3-part surfactant system. In addition, it produces a moderate foam and excellent cleaning.

This product incorporates multiple chelates and water softeners for hard water tolerance and free-rinsing. Its corrosion inhibitors prevent damage and chalking of aluminum and other soft alloys. Our *Drum Kit* does not contain *caustic*.

Recommended Dilutions:

- Touch Free Automatics 55:1
- Prep Guns 1000:1
- Bug Remover 80:1
- Tire & Wheel Cleaning 15:1
- Tunnel Alkaline Arch 100:1

Quantity: The two 5-gallon pails (Parts A & B) make 55-gallons of high-performance presoak.
