

Product Technical Data Sheet

BugOff Hyper

TW4001

Tidal Wave's BugOff Hyper is an economical bug remover with a pleasant citrus scent. It is free of caustic ingredients that can harm a car's finish and it cleans with a sophisticated blend of surfactants, phosphates and natural citrus oils.

BugOff Hyper can be used at full-strength to remove the toughest bug residues or can be diluted for economy application.

This product can be simply sprayed or foamed onto the vehicle at low pressure, or applied using high-pressure. When used diluted, it is easily removed even if it dries on the vehicle's finish making this product perfect for use in full-service greeting areas and exterior/automatic customer self-prep areas.
