

Product Technical Data Sheet

High Foam Detergent

TW1001

Tidal Wave's **High Foam Detergent** is our best-selling primary soap, designed with an emphasis on foam-generation. It is a highly-concentrated formula loaded with foaming surfactants and ingredients to penetrate and remove the toughest dirt and grime while generating copious amounts of rich shaving-cream-quality foam which provides excellent brush and cloth lubrication. This completely free-rinsing formula is available plain for maximum economy or with a variety of pleasant fragrances that your customers will appreciate.

High Foam Detergent can be used as a high-pressure soap or distributed at low-pressure through foaming nozzles or a foam generator with compressed air. It is compatible with all foam sticks, K sticks foam heads, foam nozzles, as well as volcano and waterfall arches, bubblizers and foamers in all types of car washes. It also makes an excellent foam brush detergent where white foam is desirable.
