

# Product Technical Data Sheet

## Royal High Strength

**ULTRA**  
Concentrate

TW2001

Tidal Wave's **Royal High Strength** is a high-foaming, free-rinsing alkaline presoak with superior cleaning properties and optimal brush and cloth lubrication. This sophisticated formula will penetrate and loosen road film and bug residue without scrubbing, while coating the car with a rich, wet foam so your customers can see that they're getting a robust soap application.

**Royal High Strength** can be used in any car wash, and is usually applied at low pressure. **Royal High Strength** will work with all prep guns, CTA's, foam sticks, K sticks, foam heads and foam nozzles in all washes.
